Hung in Emig.

The Democrats of Tuscarora had a hanging bee last night in which they expressed their opinion of President Cleveland. An effigy, resembling the President, was made and hung at half-mast to the Democratic pole.

On the broadside of the effigy was a placard bearing this legend: "The pro-Chinese, anti-Silver Censor of Europe and President and Dictator of the American Republic.—Independent."

Thirty Miles an Hour.

London, November 2.—The trial trip of the cruiser Havoc, showed a speed of thirty miles an hour, which was maintained for three hours. This is the first of twelve new vessels for the navy. They are known as torpedo destroyers.

Wasn't on.

First Stranger—(looking at jury) Who are all those men going into that restaurant?

Second Stranger—Tramps, I guess.

McKees Rocks, Pa., Feb. 3, 1892. NORMAN LITTON, Mfg. Co., Des Moines, Ia.

GENTLEMEN:—Your Krumsch's Headache Capsules have been and still are the greatest sellers and have given the most entire satisfaction of any article we ever kept in our stores. We have sold gross after gross of them in the past two years and in not a single case have they failed to cure any and all kinds of headaches in the most satisfactory manner.

Yours respectfully,

K. D. KRAMER & CO.

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf

Benton's Liniment for sale at all drug stores.

Jim-Jams.

The following is from Jim Townsend's paper, the Lundy Index:

This kind of weather would make a saint leave heaven and jump a Lundy town lot.

If you have any news to give, our keep it to yourself; by so doing you will show your smartness.

Nobody is compelled to read the Index. Men who do not like its editor may pass by on the other side. We are not crying for their society.

Doctors and lawyers find good grazing ground here, but it pleases us to be able to truthfully assert that none of the professional creatures reside in our midst. It is bad enough for them to visit us occasionally.

There have been suits and suits this week. The country seems to have been constructed for law-choppers. Of the merits of the causes adjudicated we know little, but the demerits of the same congest us.

"Cyclone" is a fascinating game introduced to our people by Professor Burnside. It is an alluring pastime, in which the boldest player is liable to get set back so far that his clothes are out of fashion before he catches up again.

A well-known miner the other day took a look at the big box which Dondora challenges anybody to compete in filling for \$150 a side. "The prop's off," he remarked, "Too great a disparity between the box and 11 minutes."

A Chin-se cook with a five hundred-dollar check this week was a spectacle that would make "Dr." O'Donnell's bile bubble fiercely. What right has an ill smelling healthiness to be so well heeled when there are white men that can't raise a beer-stake? God's goods are unequally divided.

Mark Twain's Latest—Romance of an Esquimaux Maiden.

A magazine is usually satisfied with one strong feature for the month. The Cosmopolitan, however, presents for November no less than five very unusual ones. William Dean Howells gives the first of the letters of the traveller, who has been visiting this country, from Altruria. We have read Mr. Howells' impression of the Altrurian; but in this first letter we have the Altrurian's impression of New York, with some comments of our Government and society, calculated to awaken the most conservative minds. The second feature of The Cosmopolitan is the portion of the magazine given up to color work, no less than ten superb color illustrations being presented for the first time in magazine history, accompanying an article by Mrs. Roger A. Pryor on "Changes in Women's Costumes." The third feature is "American Notes," by Walter Besant, who was recently in America and in doing the United States for The Cosmopolitan a la Dickens. The fourth feature is an article by General Badeau on "The Forms of Invitation Used by the English Nobility." The article is illustrated by the facsimile of cards to the Queen's drawing-room, to dining at the Princess of Wales, and to many leading houses of England. Finally, we have a new and very curious story by Mark Twain, called "The Esquimaux Maiden's Romance." It is in his happiest vein and is illustrated by Dan Beard.

Fatal Accident.

Newport, Me., November 2.—A shocking accident occurred near this place this morning on the line of the Maine-Central railway. A carriage containing Mr. Young, with his wife and daughter, was struck while crossing the track by an express train running at a high rate of speed.

Both horses were killed and the carriage smashed to pieces. Miss Young, the daughter, was instantly killed and her body badly mangled. Mrs. Young received injuries that the doctors at once pronounced fatal. Mr. Young had a leg and several ribs broken, and is in a precarious condition.

Woman's Wit.

Woman's tongue is mightier than the sandbag. A Carson footpad held up a woman the other night, but she started in to argue the point and talked him out of robbing her.—Silver State.

It now turns out that the woman said she was going to a newspaper office to pay up her subscription, and the footpad said he never did and never would interfere with anyone engaged in a work of mercy.

COAST NEWS.

A jury has been secured in the Jeffries case at Sacramento.

Three Los Angeles mashers were soundly whipped a few days ago.

Three non-union seamen were set upon and beaten at San Diego Tuesday.

Mrs. Ziegler, wife of a saloon-keeper at San Rafael, attempted suicide by cutting her wrists.

A new confidence game of a self-winding clock-advertising scheme is being peddled around in the interior.

The Indian convicted of burying a child alive at the Parker Indian agency, A. T., was sentenced to three years and seven months in the Territorial Prison.

A printer with a gold watch and \$90 in his pocket was relieved of his wealth by footpads in Los Angeles last night. The name of the victim is F. E. McLaughlin.

There are grave suspicions that the explosion on the collier San Mateo Monday, which ripped open her decks, was not caused by coal gas, as was first given in explanation. It is proposed at Victoria, B. C., to have an official investigation.

Monday night about dusk the stage on the way from Downieville to Sierra City was robbed near Logansville. The highwayman only found a gold watch and two packages of dry goods in Wells Fargo and Co's express box. There was only three passengers.

A warrant has been issued for the arrest of Ben Buckley, the "Sonoma county wild man," who has for fifteen years lived in a rail-pen on the Cunningham ranch, in Blueridge valley. Lately he has shown a disposition to use his gun too freely, and the officers propose to have him placed in an asylum.

John Dougherty, a farmer, aged sixty, living near Waterville, Wash., chopped his wife to death with a butcher knife, dragged her body to a wheat-stack and partly concealed it with straw. Later he was found in a vacant house dying from exposure and hunger. He said his wife poisoned his tea and threatened to dance over his grave. The woman was from Cedar Rapids, Iowa, and went to Waterville in answer to a matrimonial advertisement. Her name was Mary E. Phillips. Since their marriage they have led a cat and dog life.

Murder and Robbery.

Eugene Knapp arrived in town last Wednesday from Sonora. He came by way of Bridgeport. He brought the news of the murder of a man on the Mono road. He says that two travelers shot a quail which fell in the underbrush near the road, and, that while hunting for the bird the travelers discovered the body of a man with several bullet holes in his head. His pockets were turned inside out and there was nothing of any value left on him. The murderers also took his horse.

Investigation has developed the fact that the murdered man has for several years been a resident of East Walker river, having worked near Pine Grove and also for Jim Wright. His name was — Davis, but he was known among his acquaintances as "Magpie." He is said to have been a rather simple-minded, but honest and industrious young man. As yet the murderers have not been caught.—Walker Lake Bulletin.

The Murder Trial.

The Courtroom was packed yesterday, to hear the closing testimony. Parsons took the stand in his own behalf, and while testifying broke down completely, and he and his three children sobbed so hard, that the little girl had to be led out of the Courtroom. It was some minutes before the accused could compose himself sufficiently to continue his testimony. He claims that Hamilton made a move as if to draw a pistol, and he fired as he feared his own life was in danger.

The testimony was all in yesterday, and the argument was begun by Mr. Deal. Court will convene again this morning, and the case will doubtless go to the jury today.

A Rate on Apples.

The Southern Pacific Company has made a carload rate on apples in boxes or barrels to Chicago and other western points of one dollar per hundred pounds. This new rate, it is expected, will help the apple market out.
